## HUNGARY

### MILITARY

# Hungarian AA Dispositions since the Revolution

25X1

- 1. Anti-aircraft command BUDAPEST consists of 4 heavy AA regiments and 2 light AA regiments. Each regiment has 9 batteries of 8 guns to a battery, the heavy AA being 85 mm Soviet type guns, and the light being 37 mm. The 85 mm guns are being replaced by 100 mm weapons. The heavy AA regiments of BUDAPEST command are disposed in CSEPEL, HARMASHATARHEGY, BUDAORS and FOT, and the light regiments in KOBANYA and CITADELLA-GELIERT HEGY.
- 2. Other heavy AA regiments are stationed (one in each place) at MISKOLC, ZAHONY, FERTOSZENTMIKLOS, DUNAPENTELE and SZOLNOK.
- 3. During 1955 a great many fixed gun emplacements were adapted for defence against atomic attack, in that underground concrete shelters were built below them with independent oxygensupply. Anti-radiation / anti-gas suits were also issued to gun-crews.
